

Introducing TradeWinds

Multi-Purpose, Biodegradable Deodorizer

TradeWinds is an economical, multi-purpose, biodegradable deodorizer that can be used anywhere offensive malodours are a problem.

TradeWinds has unlimited use. It is used in waste receptacles, garbage compactors, industrial plants, locker rooms, pens and kennels, rest rooms, hotels and motels, everywhere a fresh, clean fragrance is desired.

ELIMINATES REPULSIVE ODOURS - Designed to be sprayed anywhere malodours exist ...lasts longer and can be sprayed on any surface.

DEACTIVATES ODOURS AT THEIR SOURCE - Deactivates malodours by chemically combining with odour causing agents.

REPLACES AEROSOL PRODUCTS - When diluted with water, **TradeWinds** makes an economical and effective room deodorizer.

USES:

Hotels and Motels- Spray around beds, carpet corners, toilets to freshen the air.

Garbage Compactors - Dilute 5 ounces of **TradeWinds** in one gallon of water and spray into and around compactor. Kills odours and freshens surroundings.

Hospitals and Nursing Homes - Spray **TradeWinds** directly into bed pans, urinals and on dirty bed linen to control foul organic odours.

Carpet Shampooing - Mix 2 ounces of **TradeWinds** in one gallon of diluted shampoo to control musty odour.

Air Deodorizer - Using a trigger sprayer, mist **TradeWinds** into air to eliminate smoke and other foul odours.
